Experience

Frontend Developer (Intern)

Dukaan, June 2022 - Sep 2022
• Worked on improving buyer-side app features and theme development.
• Improved performance by revamping themes and optimizing CSS using UI kits.
• Worked on Next.js, Dukaan UI kit, and template engines.
• Implemented pre-commit hooks for code maintenance.
• Created a store locator using Google Maps API and D3JS.
• Developed an enterprise web app for **StyleUp** By Aditya Birla Group company.

SDE (Intern)

Flaq, Dec 2022 - Feb 2023
• Contributed to the core web application, working closely with managers, designers, and developers.
• Revamped the Quiz section for improved performance.
• Utilized Next.js, Chakra-UI, and Notion API for development.
• Developed various simulations, including wallet creation, crypto transfers, NFT minting, and token swapping.

React Native Engineer

Buttrfly, Jul 2023 - Aug 2023
• Contributed significantly to the development of the core application, Buttrfly. Collaborated closely with the company's founder and a talented team of developers.
• Successfully upgraded the entire app from Expo 46 to Expo 48, which made the app faster and better for users.

Projects

LensPlay

• A native decentralized video sharing app built on top of lens protocol
• It is designed to empower creators to own their social graph, forming a fully composable, user-owned social graph.
• Built using React native, expo and different web3 technologies.
• We got 10k+ registration on waitlist and 300+ downloads within 36 hours.

MetaMusic

• Build decentralized web-app which allows to share music and user get a NFT of that song's photo on opeansea
• Also, after uploading song user can hear and another user can give tip to the owner of that song
• Built using ReactJs, TailwindCSS, EthersJS, IPFS

DevSpace

• A project feedback app where user can login and share their projects and other users can give feedback to the projects.
• Also, User can edit profile and can see all projects
• Built using NextJS, Chakra-UI, Redux-toolkit,Prisma, Supabase, and Auth0.
